

Cibola is a management and financial consulting agency, established in 2000. The activities of the agency include preparation of investment projects, business plans, projects for financing on European programs, consulting in the field of energy efficiency, and management strategies for business development. The company keeps a close watch on all financial programs, aiming at the stimulation of Bulgarian economy.

Our main priority is our clients' success which we ensure thanks to the know-how and experience of our professionals' team. The proper attitude and individual approach towards each client's business case help us achieve positive results and establish long-term business relationships.

It is essential for us not only to develop our clients' ideas and implement them but to make a thorough analysis of their business, evaluate the weak and strong points and find the best solution for our clients in order to make them leaders in the sphere of business they operate in.

We provide expertise through the following:

- We make researches and prepare the most efficient and cost-effective strategy for applying for EU subsidies;
- We help our clients plan an effective strategy for getting and utilizing subsidies under the EU programs;
- We prepare business-plans required for applying under the relevant financing programs;
- We assist our clients in preparing all the required documents and in filling in forms;
- We accompany our clients at meetings with representatives of the financial institutions;
- On request we propose expert solutions in various aspects (technological, legal, ecological, etc.), relevant to the particular investment project.

Let the facts talk:

More than 150 investment projects were approved and implemented with the assistance of Cibola in the last 5 years.
